Judge Underwood's Charge to the The May term of the U. S. Circuit Court commenced in Richmond on Monday. Judge

J. C. Underwood presiding.

The grand jury of the last term having been discharged, a new grand jury was sworn in. After the calling of the names, the Judge announced that the clerk would read the oath required of grand jurors, and if any of them had any conscientious scruples about taking it they would please announce it.

The clerk then read the "iron-clad," and Messre. William Taylor and Isbon Benedict refused to take it. Their names were streken from the list. at no

William R. Jones, of Norfolk, then took the oath as foreman of the grand jury. After administering the oath, the crier, proclaimed that the honorable Judge was about to deliver his charge, and commanded

Here is the charge hour Gentlemen of the Grand Jury-Very unexpectedly, I find it my duty to address a few words to you in the absence of the Chief Justice, who is soon expected, and who, I trust, will enlighten us all in relation to our several

The oaths you have taken afford an excellent summary of your duties. You are to take notice of all criminal violations of any and every act of the Congress of the United States .-If you know individually of any violation of the laws of our national legislature, you should present the case to the jury and give your own testimony in the case and have the witnesses summoned without waiting for any of the officers of the court. I am happy to learn that the jury of the last term, which was discharged on Saturday, has acted so efficiently as to leave little for you to do at present. But it is to be feared many crimes will be brought to light which will require your attention. The violence which has raged through the years just past, and the unsettled condition of the country, make much labor for grand juries. Offences against the internal revenue laws are a!most daily occurring. The illicit manufacture and sale of distilled spirits is still going on in this district, not only defrauding the national treasury, but spreading death, desolation, crime, insanity, want and domestic misery; filling our jails, penitentiaries, poor-houses and lunatic asylums with their wretched victims. If the view is not inviting, it is highly necessary that you should enter upon this field of inquiry, and a faithful discharge of your duty in this regard will be a source of comforting re-

flection for all time to come. The tax of two dollars per gallon imposed by the government upon distilled spirits, sp far from being a burden, is a positive blessing to the nation. If collected, it will diminish to a considerable extent the consumption of those intoxicating beverages, which destroy more lives, property and human happiness than war, pestilence and famine-all combined. By diminishing this great evil, you will be do-ing the work of the patriot and philanthropist. If you could materially check the drinking habits of the country, and especially of this most drunken city I have ever seen, you would secure the heartfelt thanks not only of all good men, but of all the mothers, wives, sisters and daughters in our midst, who are now made to suffer from the folly and intemperance of those who should protect sustain and relieve woman from the dreadful evils flowing from the polluted fountains that abound in our midst, and poison by their streams of misery so many cir-

cles of social and domestic happiness. There is in this community very great and well-founded complaint of hard times; but if, instead of drinking to drown our trouble, we would all totally abstain from drunkenness, drive distilled spirits to their legitimate place in the arts, in chemistry, in the medical chest, and apply ourselves to useful and productive employments, we would soon forget our troubles of hard times, and have little need of grand juries of courts of justice. God grant the speedy arrival of that good time coming. You will also be probably called to consider other offences besides those against the revenue-violations of the postal laws, counterfeiting the currency of the U. S. perjuries and abuses under the bankrupt laws, the election hwe the law known as the civil rights bill; and every offence which you now know against the laws of Congress, or which may in any way be brought to your knowledge.

WHEN BRUCE, the traveller, reported that two hundred per cent cheaper than Peruvian he had seen stakes out from a living cow by soldiers, and eaten raw, and the animal driven enward, the story threw doubt, in most minds, on all his statements, and his book was read for a generation as a book of lively invention rather than as an account of facts. Strange to say, the English now in Abyssinia fully confirm the old yarn spinner; and the correspondent of the London Morning Herald has more than once seen Abyssinian soldiers perform the ate eating. Indeed, all the marvellous stories ap 14-1m B, H. LAMBERT, Agent, of Bruce seem to have been strictly true and of Bruce seem to have been strictly true, and his book will rank higher hereafter as an accurate testimony to the condition of the singular country it describes than ever before.

A meeting of blacks was held last week at Ebenezer Church, in Richmond, which, after a formal organization, drew up a petition, which was presented to Gen. Schofield, yesterday, icquesting him to stop the further naturalization of foreigners. Their petition is long, and its substance is that the blacks want no more white men in Virginia, and invoke the aid of the commandant of this district to keep them out of the State.

HISTORY OF THE WAR, Its Causes, Character, Conduct and Results.

By HON. ALEX. H. STEPHENS.

A BOOK FOR ALL SECTIONS AND ALL

PARTIES.

This great work presents the only complete and impartial analysis of the Causes of the War yet published, and gives those interior lights and shadows of the great conflict only known to those high officers who watched the flood-tide of revolution from its fountain springs, and which were so accessible to Mr. Stephens from his position as second officer of the Confederacy. To a public that has been surfeited with apparently similar productions, we promise a change of fare, both agreeable and salutary, and an intellectual treat of the highest order. The Great American War has at last found a historian worthy of its importance, and at whose hands it will receive that moderate, candid and impartial treatment which truth and justice so urgently demand. The intense desire everywhere manifested to

THE ONLY PLACE WHERE A CURE CAN BE OBTAINED DR. JOHNSON has discovered the most Certain, Speedy, and only Effectual Remedy in the World for Weakness of the Back or Limbs, Strictures, Affection of the Kidneys or Bladder,

Involuntary Discharges, Impotency, General Debility, Nervousness, Dyspepsia, Languer, Low Spirits, Confusion of Ideas, Palpitation of Low Spirits, Confusion of Ideas, Paipitation of the Heart, Timidity, Trembling, Dimness of Sight, or Giddiness, Disease of the Head, Throat, Nose, or Skin, Affections of the Liver, Lungs, Stomach, or Bowels—those Terrible Disorders arising from Solitary Habits of Youth—secret and solitary practices more fatal to their victims than the song of Syrens to the Mariners of Ulysses, blighting their most bril-liant hones or anticipations, rendering mark liant hopes or anticipations, rendering merriage, &c., impossible. YOUNG MEN,

Especially, who have become the victims of solitary vice, that dreadful and destructive habit which annually sweeps to an ultimely grave thousands of Young Men of the most excellent talents and brilliant intellect, who might otherwise have entranced listening Senstors with the thunders of eloquence, or waked to estacy the living lyre, may call with full confidence.

Married Persons, or Young Men comtempla-ting marriage, being aware of Physical Weakness. Organic Debility. Deformities, speedily

He who places himself under the care of Dr. J. may religiously coulde in his honor as a gentleman, and confidently rely upon his skill as a physician.

ORGANIC WEAKNESS Immediately cured and full vigor restored. This distressing affection, which renders life miserable and marriage impossible, is the penalty paid by the victims of impropriety.— Young persons are too apt to commit excesses from not being aware of the dreadful consequences that may ensue. Now, who that understands the subject will pretend to deny that the power of procreation is lost sooner by those falling into improper habits than by the prudent? Besides being deprived of the pleasure of healthy offspring, the most serious and destructive symptoms of both body and mind arise. The System becomes deranged, the Physical and Mental Functions Weakened, Loss of Procreative Power, Nervous Irritability, Dyspepsia, Palpitation of the Heart, Indi-gestion, Constitutional Debility, and Wasting of the Frame, Consumption, Decay and Death.

DR. JOHNSON, Member of the Royal College of Surgeons, London, Graduate of one of the most eminent Colleges in the United States, and the greater part of whose life has been spent in the hospitand Feather Dusters of all descriptions, Door part of whose life has been spent in the hospit-Mats, and all other articles usually found in a als of London, Paris, Philadelphia, and elsewhere, has effected some of the most astonishing cures that were ever known, many troubled with ringing in the head and ears when asleep, great nervousness, being alarmed at sudden sounds, bashfulness, with frequent blushing, attended sometimes with derangement of mind,

were cured immediately. TAKE PARTICULAR NOTICE. Dr. J. addresses all those who have injured themselves by improper indulgence and solitary habits, which ruin both body and mind, unfitting them for either business, study, socie-

ty or marriage. These are some of the sad and melancholy effects produced by early habits of youth, viz: Weakness of the Back and Limbs, Pains in the Head, Dimness of Sight, Loss of Muscular Power, Palpitation of the Heart, Dyspepsia, Neryous Irritability, Derangement of the Digestive Functions, General Debility, Symptoms of Consumption, &c.
MENTALLY.—The fearful effects on the mind

are much to be dreaded. Loss of Memory, Confusion of Ideas, Depression of Spirits, Evi Forebodings, Averson to Society, Self Distrust, Love of Solitude, Timidity, &c., are some of the evils produced: Thousands of persons of all ages can now judge what is the cause of their declining health,

losing their vigor, becoming weak, pale, nervous and emaciated, having a singular appearance about the eyes, Cough, and Symptoms of

Consumption. YOUNG MEN, Who have injured themselves by a cer tain practice, indulged in, a habit fre quently learned from evil companions, or at school, the effects of which are nightly felt, even when asleep, and, if not cured, renders marriage impossible, and destroys both mind and body, should apply immediately.

What a pity that a young man, the hope of his country, the pride of his parents, should be

snatched from all prospects and enjoyments of life by the consequence of deviating from the path of nature, and indulging in a certain secret habit. Such persons must, before contem-MARRIAGE, reflect that a sound mind and body are the most

necessary requisites to promote connubial hap-

Indeed, without these the journey through life becomes a weary pilgrimage; the prospect hourly darkens to the view, the mind becomes shadowed with despair and filled with the melancholy reflection that the happiness of

another becomes blighted with your own. DISEASES OF IMPRUDENCE. When the misguided and imprudent votary of pleasure finds that he has imbibed the seeds of this painful disease it too often happens that an ill-timed sense of shame or dread of discovery deters him from applying to those, who from education and respectability, can alone befriend him, delaying till the constitutional symptoms of this horrid disease make their appearance, such as ulcerated sore throat, diseased nose, nocturnal pains in the head and limbs, dimness of sight, deafness, nodes on the shin-bones and arms, blotches on the head, face and extremities, progressing with frightful rapidity extremities, progressing with frightful rapidity till at last the palate of the mouth or the bones of the nose fall in, and the victim of this awful disease becomes a horrid object of commissera-tion, till death puts a period to his dreadful suf ferings, by sending him to "that Undiscovered

Country from whence no traveller returns." It is a MELANCHOLY FACT that thousands fall victims to this terrible disease, owing to the unskilfulness of ignorant pretenders, who, by the use of that DEADLY POISON, MY R. CURY, ruin the constitution and make the residue of life miserable.
